WI Food Manager Certification During COVID

Do you need to take a class or renew your Wisconsin Food Manager Certification? Chapter 8 policy states the State of Wisconsin Food Manager Certification is required for Nutrition Directors and all lead and substitute cooks at a central kitchen or on-site cooking senior dining center in which nutrition program meals are purchased, prepared and or cooked. At a minimum, at least one staff person or volunteer with a Wisconsin Food Manager Certification must be on duty at all times when meals are being purchased, prepared, and or cooked at a central kitchen or on-site cooking site. It is recommended that other staff working in a food handling capacity at such locations maintain a Wisconsin Food Manager Certification.

Due to course cancellation, Department of Agriculture, Trade and Consumer Protection is allowing a 90-day extension. Here is the link to the their website listing the approved Food Manager Certifications:
