Aging and Disability Resource Center (ADRC) of Door County Questionnaire

Every three years, the Aging and Disability Resource Center (ADRC) of Door County is required by the State of Wisconsin to complete a strategic plan that serves as a

platform to create, improve and expand services we provide our community. This living document is known as our "Three Year Aging Plan" and the new plan will cover 2022-2024.

Our staff and advisory committee members participate in the development of this plan, but input and feedback from you is extremely valuable.

Your response is a key element in determining how we are currently doing in serving our community, in identifying areas of program improvement and in coming up with creative ways to fill existing service gaps. It also allows an opportunity for those who are affected by or interested in an issue to be involved in decision-making.

You can also fill out the survey online: https://www.surveymonkey.com/r/V2J9QJ3

We hope everyone is staying safe. You are not alone! <u>Please do not hesitate to call us at (920)746-2372 if you</u> <u>need any additional support or you would like help filling out the questionnaire.</u>
