Dollars & Sense

Check this section for the answers to your Fiscal questions. Watch upcoming issues of the newsletter for more updates!

Q: We have reached the required minimum Cash Match, should we report the additional county/tribal funds used under Other Local?

A: All County or Tribal funds used to supplement expenses for the Title III program must be reported within the Cash Match column per policy. This is then reported to the state and in our federal report to show how much local county and tribal funding is added to support these programs. Other Local expenses is funding provided to the Aging Unit, such as grants from local county organizations, to support Title III services.

Q: Our annual audit is completed...does GWAAR need a copy of the audit and where do we send it?

A: Yes, GWAAR is required to receive a copy of all annual audits. GWAAR staff will review each audit for findings and if necessary, will follow up with Aging Units to resolve any audit issues. All audits should be sent to GWAAR fiscal department at the email contracts@gwaar.org. This year's theme is "Food Connects Us." What a perfect theme to help promote our Senior Dining Sites!

Food is a connecting factor for many of us. Food connects us to our cultures, our families and our friends. Sharing a meal is an opportunity to learn about its preparation, who made it and where the ingredients were sourced. Health, memories, traditions, seasons and access can all impact our relationship with food. While these factors influence the foods we eat, the foods we eat also affect our health.

Registered Dietitian Nutritionists (RDNs) and Nutrition and Dietetics Technicians, Registered (NDTRs) play a critical role in helping people understand the connection between the foods individuals and communities eat, and how these foods impact health throughout life.
