

Which counties are represented in your group? _____

GOALS 4.2, 4.3, 4.4 are the next steps in 2026 to make information we've uncovered useful to you in the work you do with caregivers.

In groups of 2-3, discuss the following and write responses to the questions:

- 1. Do you have plans to reach out to employers in your county? If not, would you consider reaching out if you were equipped with helpful materials?**
- 2. Describe how you would contact an employer. What would you do? What materials would you need?**
- 3. Once you've made contact, what action do you want the employer to take? (Check all that apply)**
 - **☐ Invite you to make a presentation to employees or participate in a Resource Fair?**
 - **☐ Allow you to provide printed materials?**
 - **☐ Include your website or email on employee bulletin boards or in-house corporate digital information?**
 - **☐ Participate in future planning meetings to create a Working Caregiver business strategy?**
 - **☐ Schedule visits with managers or employees?**
 - **☐ Other:**

Which counties are represented in your group? _____

GOAL 4.5 is updating the HR Care Kit which was introduced a couple of years ago. It is a printable publication tool designed to help employers better understand the needs of working caregiver and encourage them to create a strategy supporting working caregivers. It contains research conducted by WFACSA of Wisconsin employers and caregivers. It includes stories and a template for starting to build a strategy supporting all employees who currently are also caregivers or will become caregivers.

Download the HR Care Kit at [hr-carekit.pdf \(wisconsincaregiver.org\)](http://hr-carekit.pdf(wisconsincaregiver.org))

Return to your small groups and discuss. Please write down responses:

1. How are members of your group using the current version (if at all)?

2. What would help you to use it most effectively?

- **Do/Would you use it as a downloadable document (and not as a printed publication)?**
- **Do/Would you use it more or less if in printed form?**
